

"Hello, my name is Adarsh Sharma, and I am a passionate Frontend Developer with 4 years of experience. Currently, I am working at Tata Consultancy Services (TCS) as an Systems Engineer. In my role ,I focus on React development for applications in the life sciences domain. In addition to this, I have also worked in the travel domain. Prior to this, I worked at TCZ as an Associate Technology, focusing on automotive domain, and at Bella Vita Organic, where I contributed as a Frontend Developer in the natural wellness and organic products domain.

Achievements:

- I was honored with the Contextual Master Award for my exceptional contribution to the development of web applications in the life sciences domain, highlighting my technical expertise and ability to work well in a collaborative environment.
- My team was selected for the Smart India Hackathon in both 2018 and 2019, which was an incredible learning experience and helped me grow as a developer.
- I have developed 2-3 websites as a freelancer, gaining hands-on experience in delivering client-centric solutions.
- I also received a Pat-on-the-back from a client for my significant contribution to frontend development, which was a rewarding recognition of my skills and efforts.

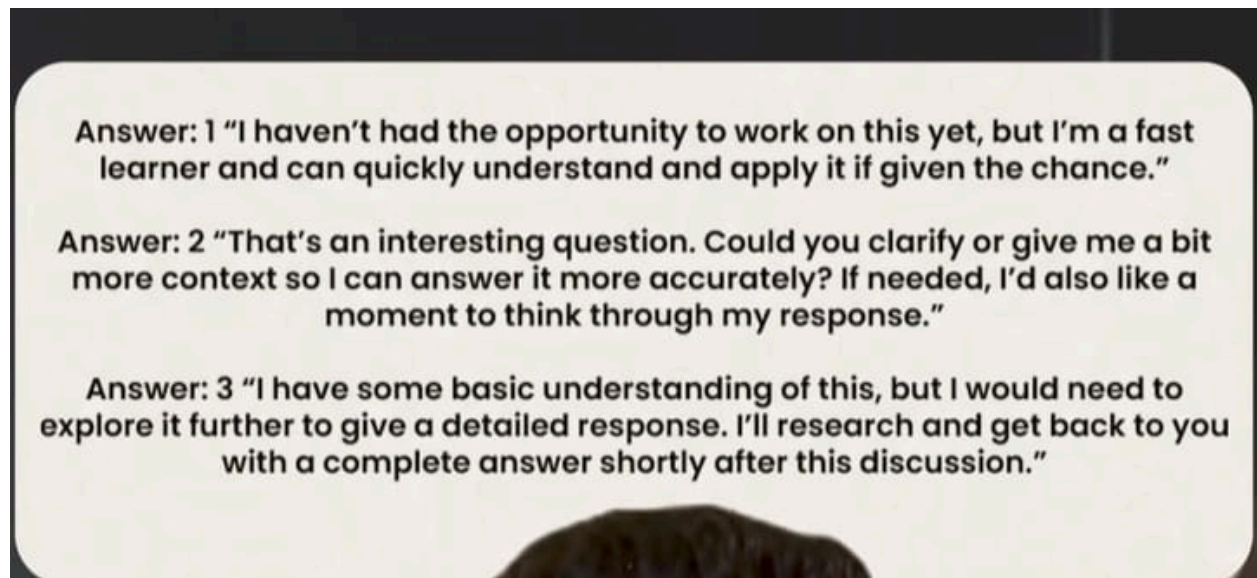

Additional Information:

In my free time, I actively maintain my portfolio website, which has grown to over 500 users, showcasing my work and projects. I also stay active on social media, where I share my work and insights into frontend development, aiming to connect with fellow developers and stay updated on industry trends. I am always looking to learn new technologies and experiment with creative solutions to push the boundaries of web development.

When Interviewer ask How are You ?

- I am doing really great
- Thank you so much for asking
- And I am really excited about the interview
- How about you

When we not know the answer
